

G – ATC correction

Red = negative, zero, or > 5 MAD from voxel median. Y-axis capped at median + 10 MAD.

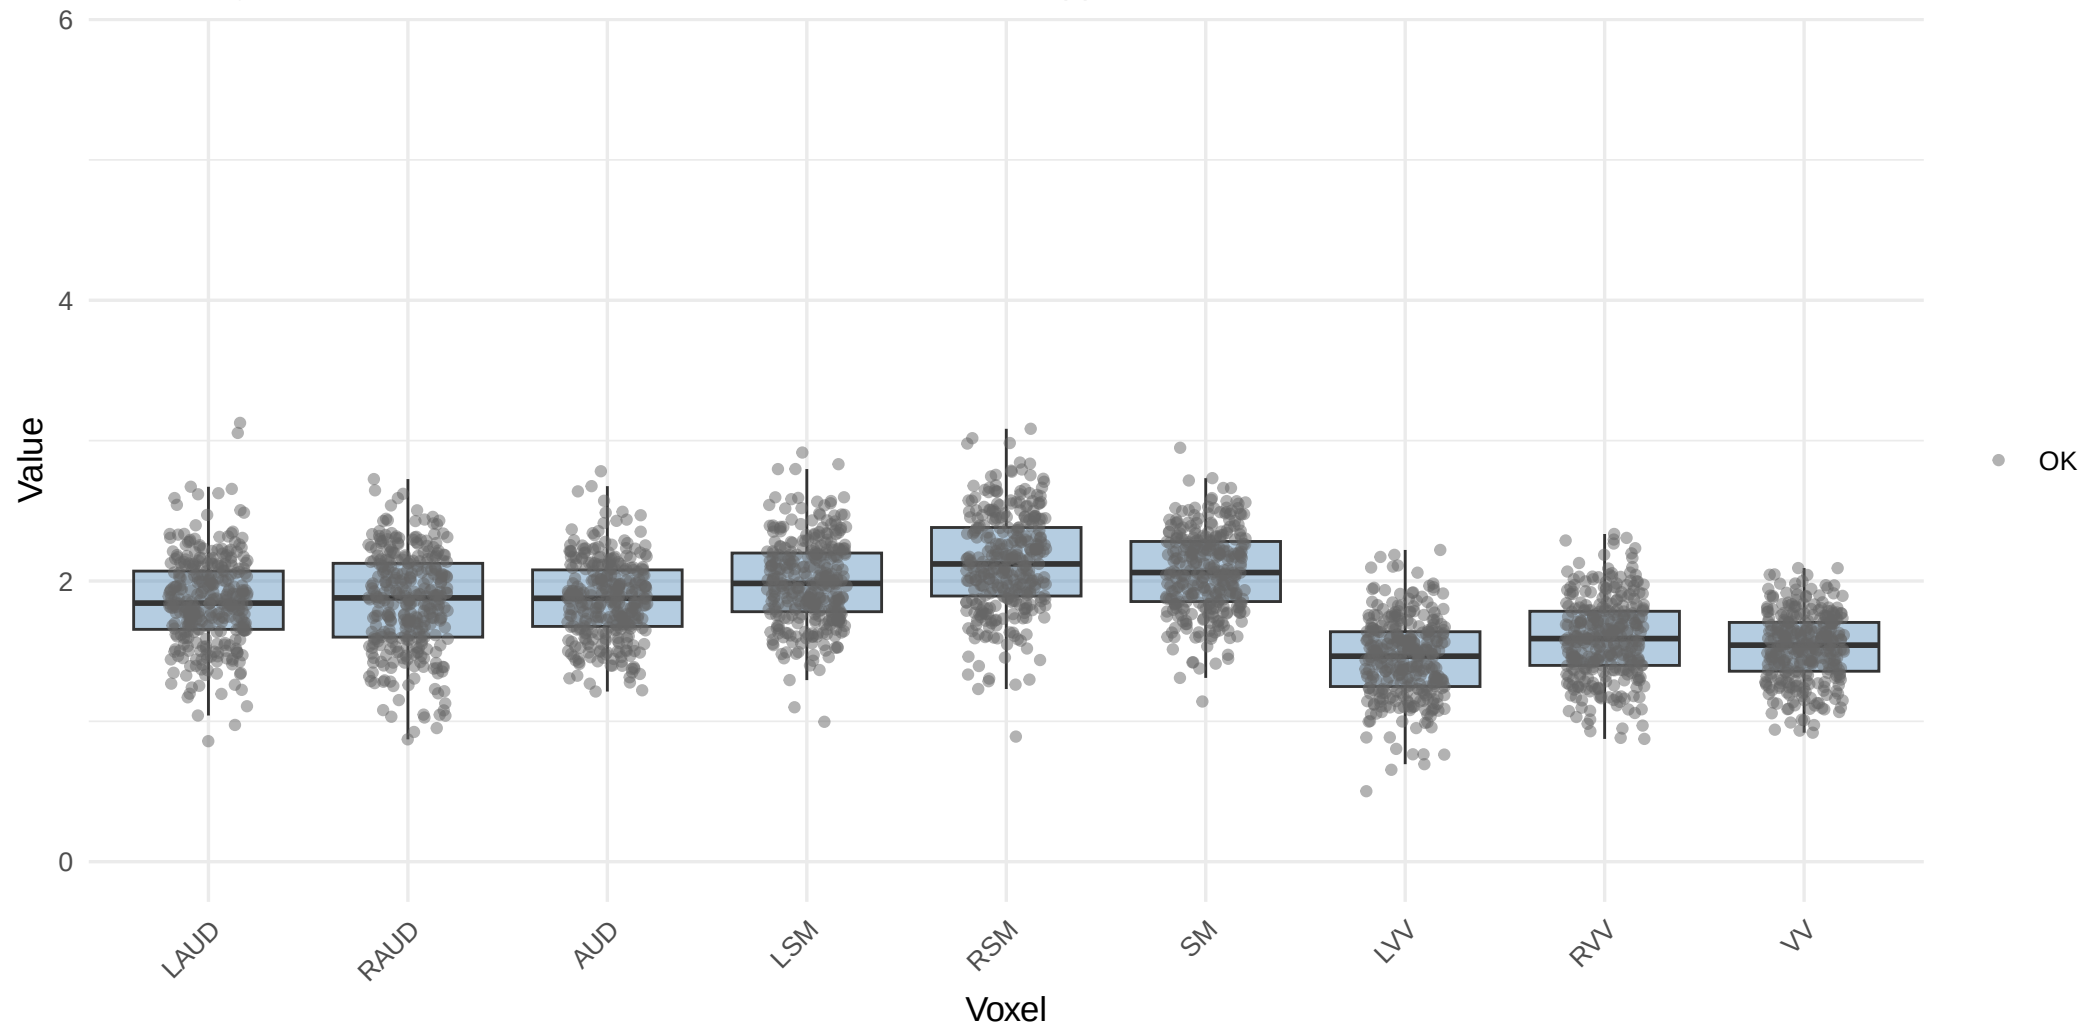

G – CR correction

Red = negative, zero, or > 5 MAD from voxel median. Y-axis capped at median + 10 MAD.

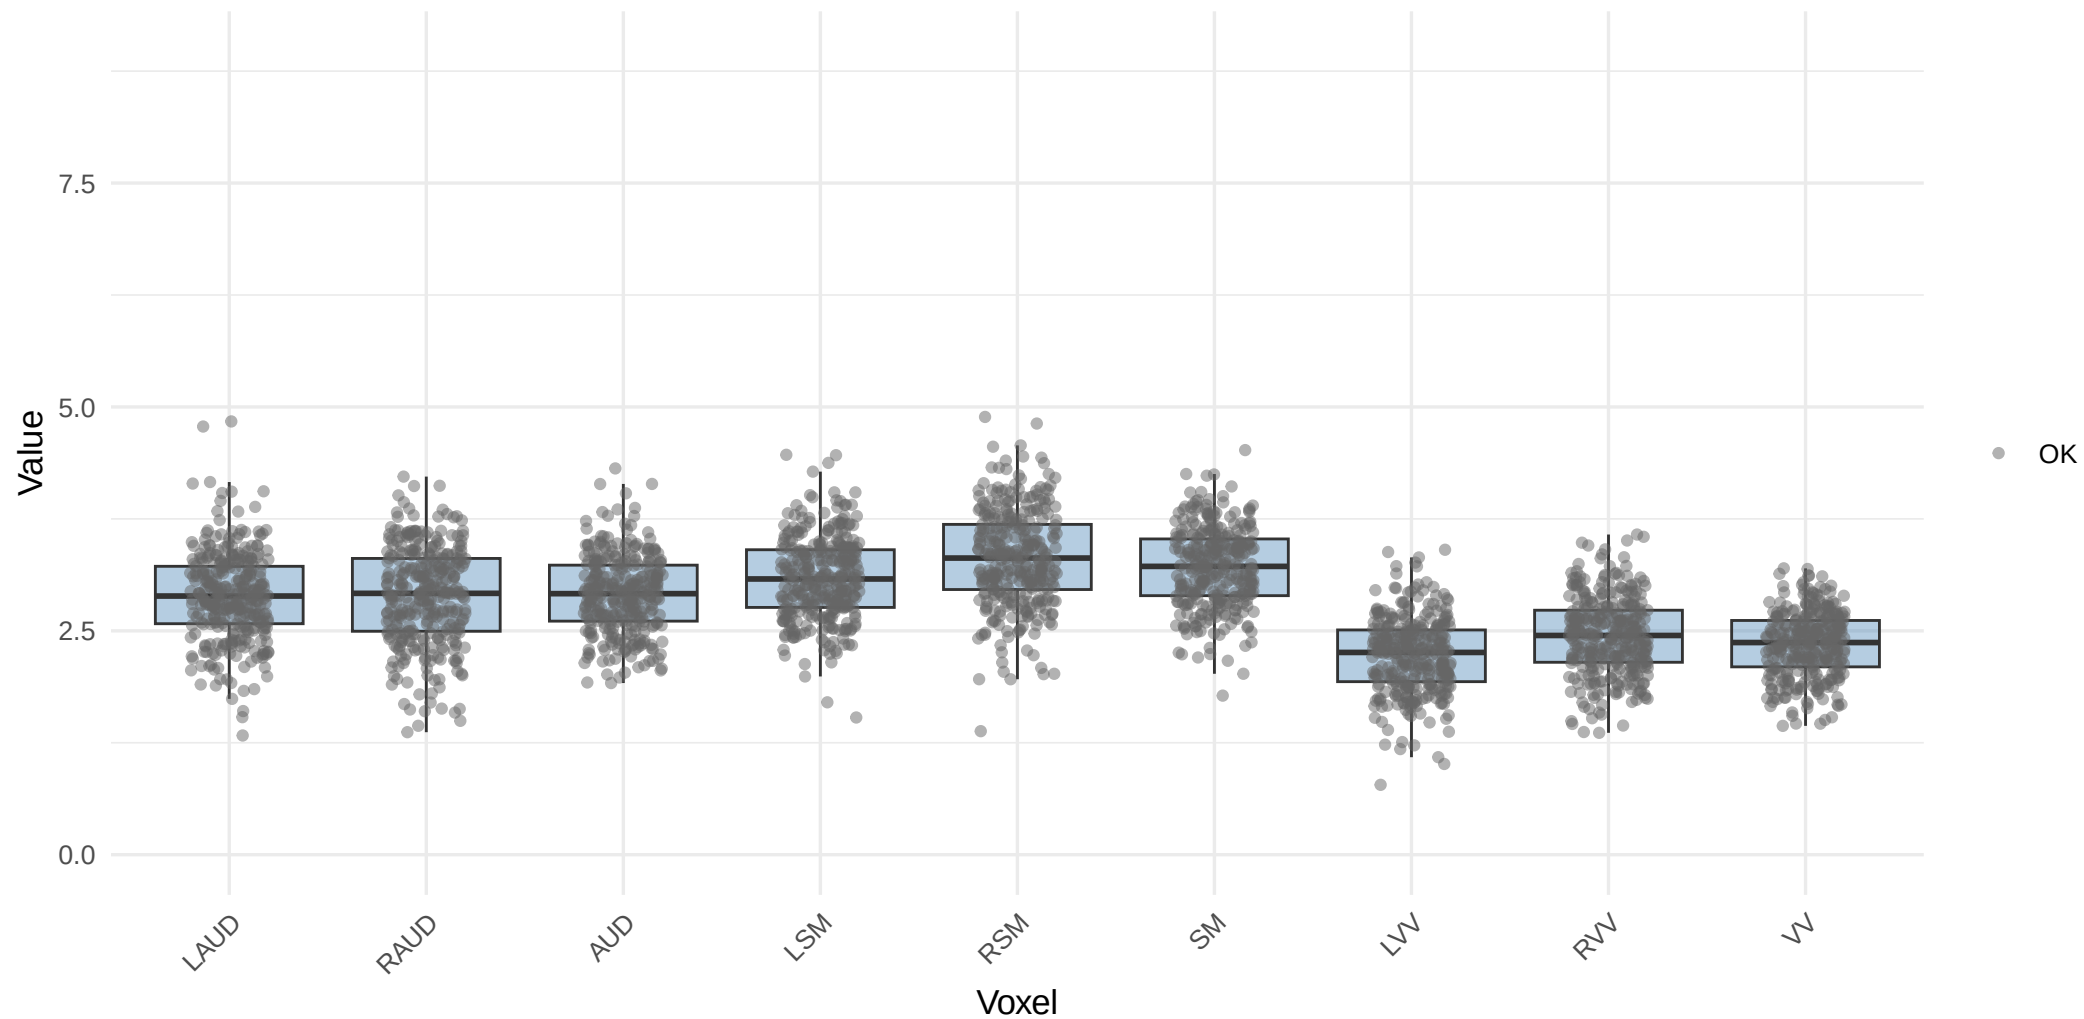

G – CSF correction

Red = negative, zero, or > 5 MAD from voxel median. Y-axis capped at median + 10 MAD.

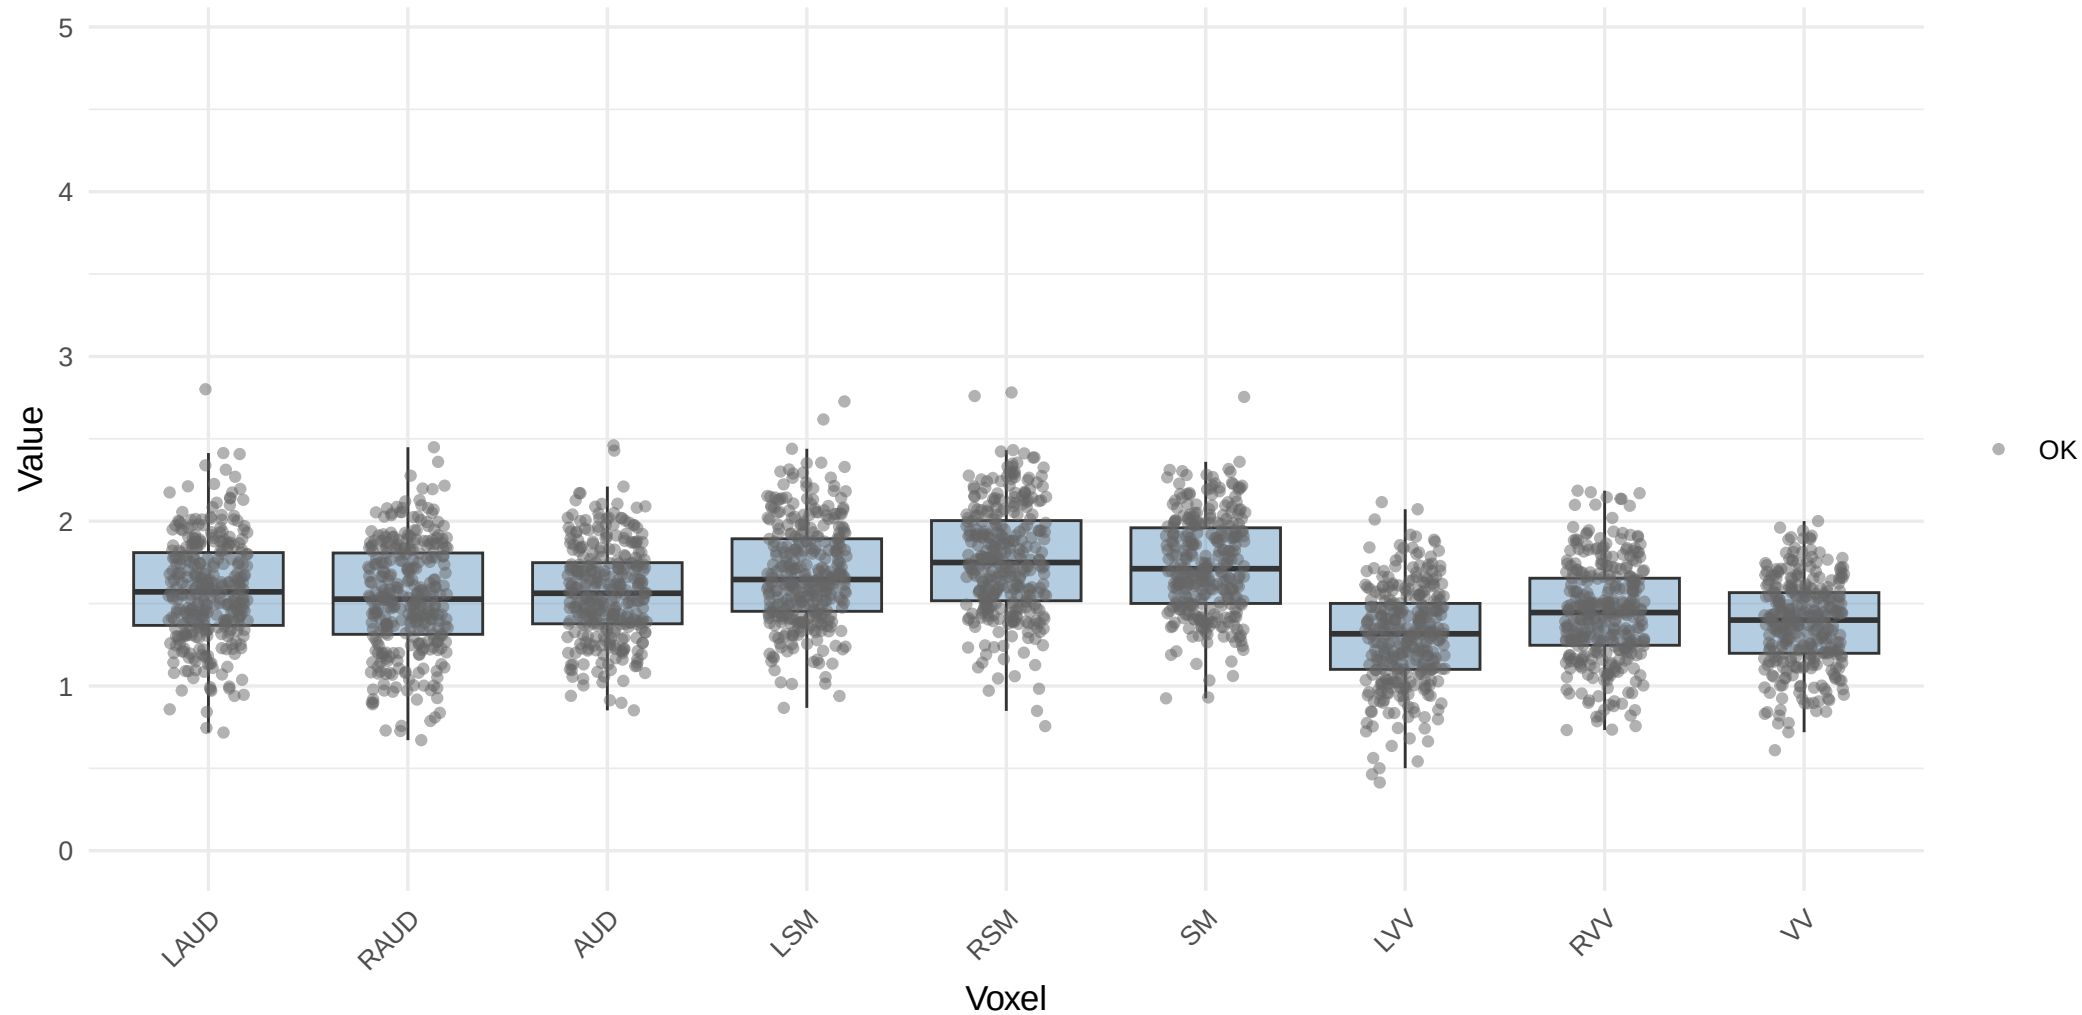

G – TC correction

Red = negative, zero, or > 5 MAD from voxel median. Y-axis capped at median + 10 MAD.

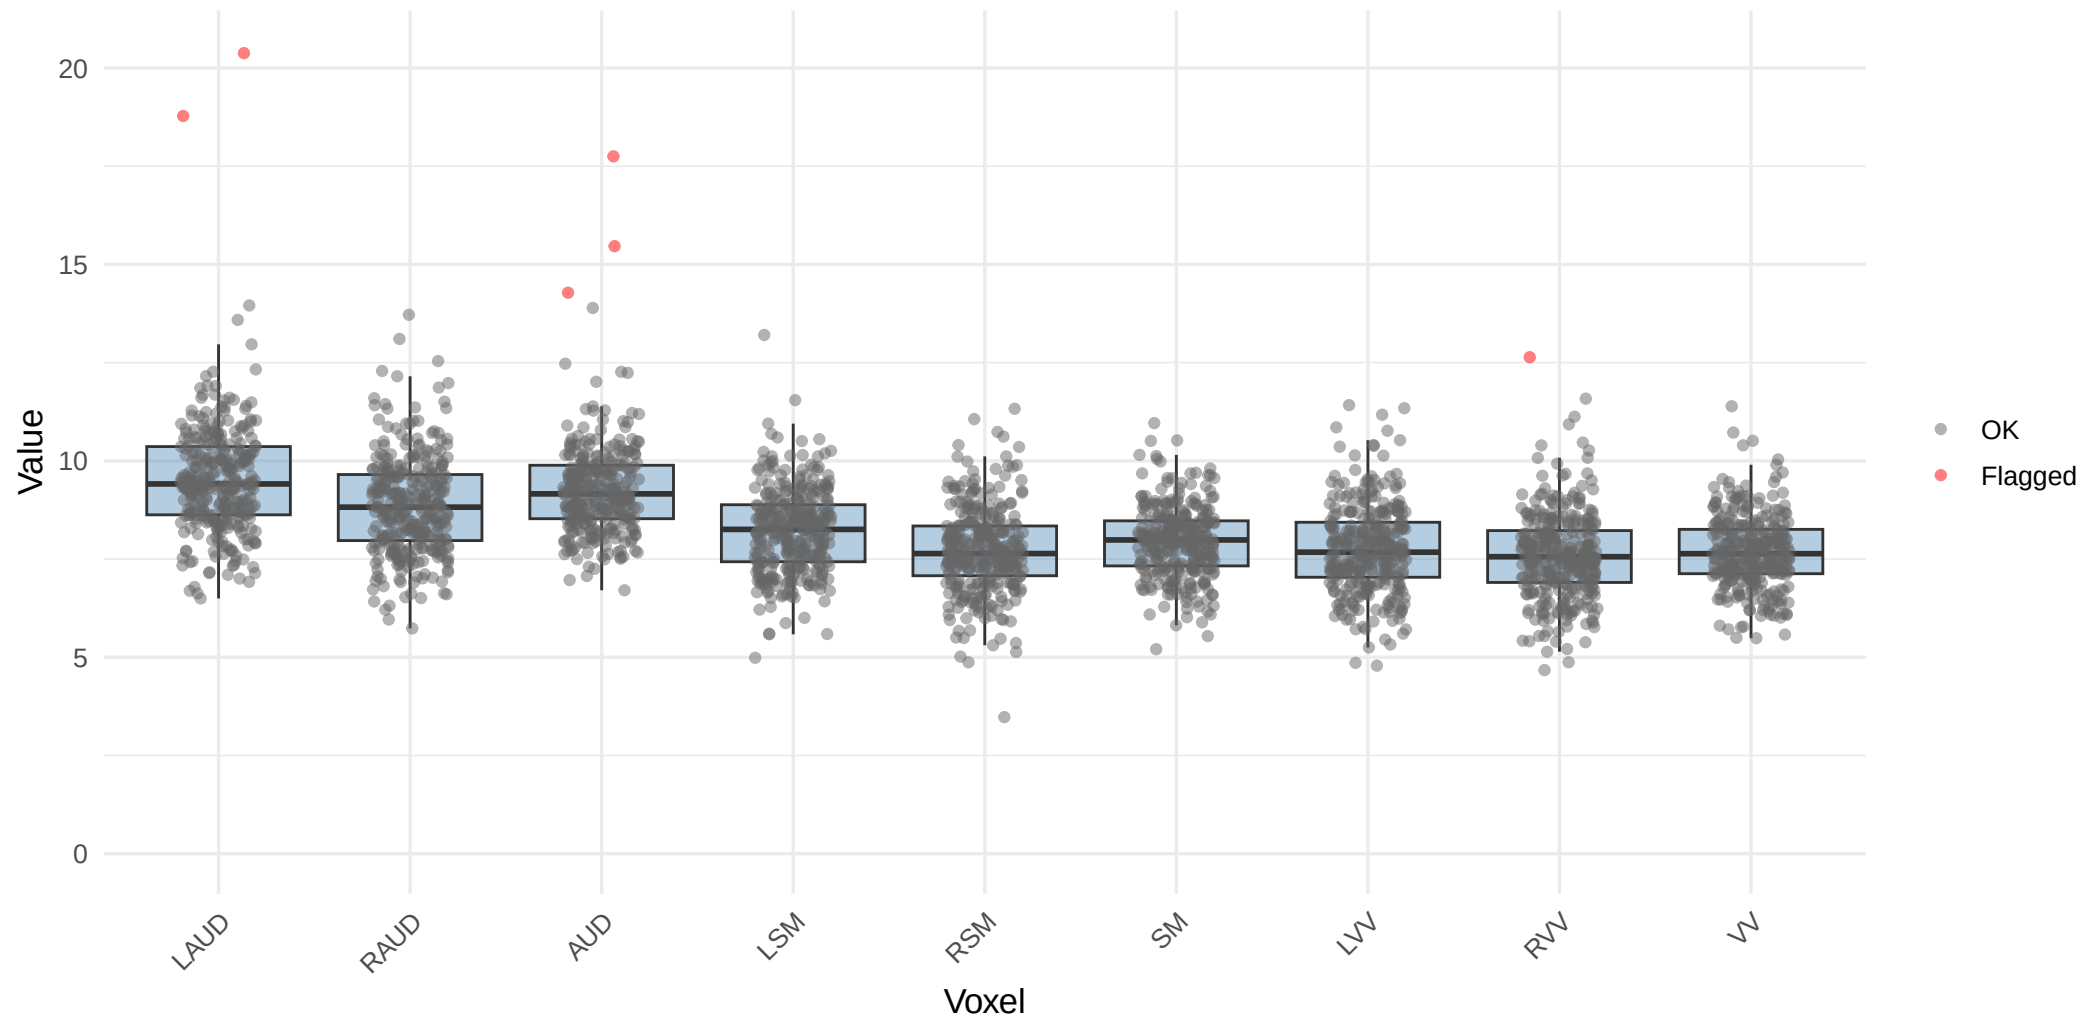

G – UNC correction

Red = negative, zero, or > 5 MAD from voxel median. Y-axis capped at median + 10 MAD.

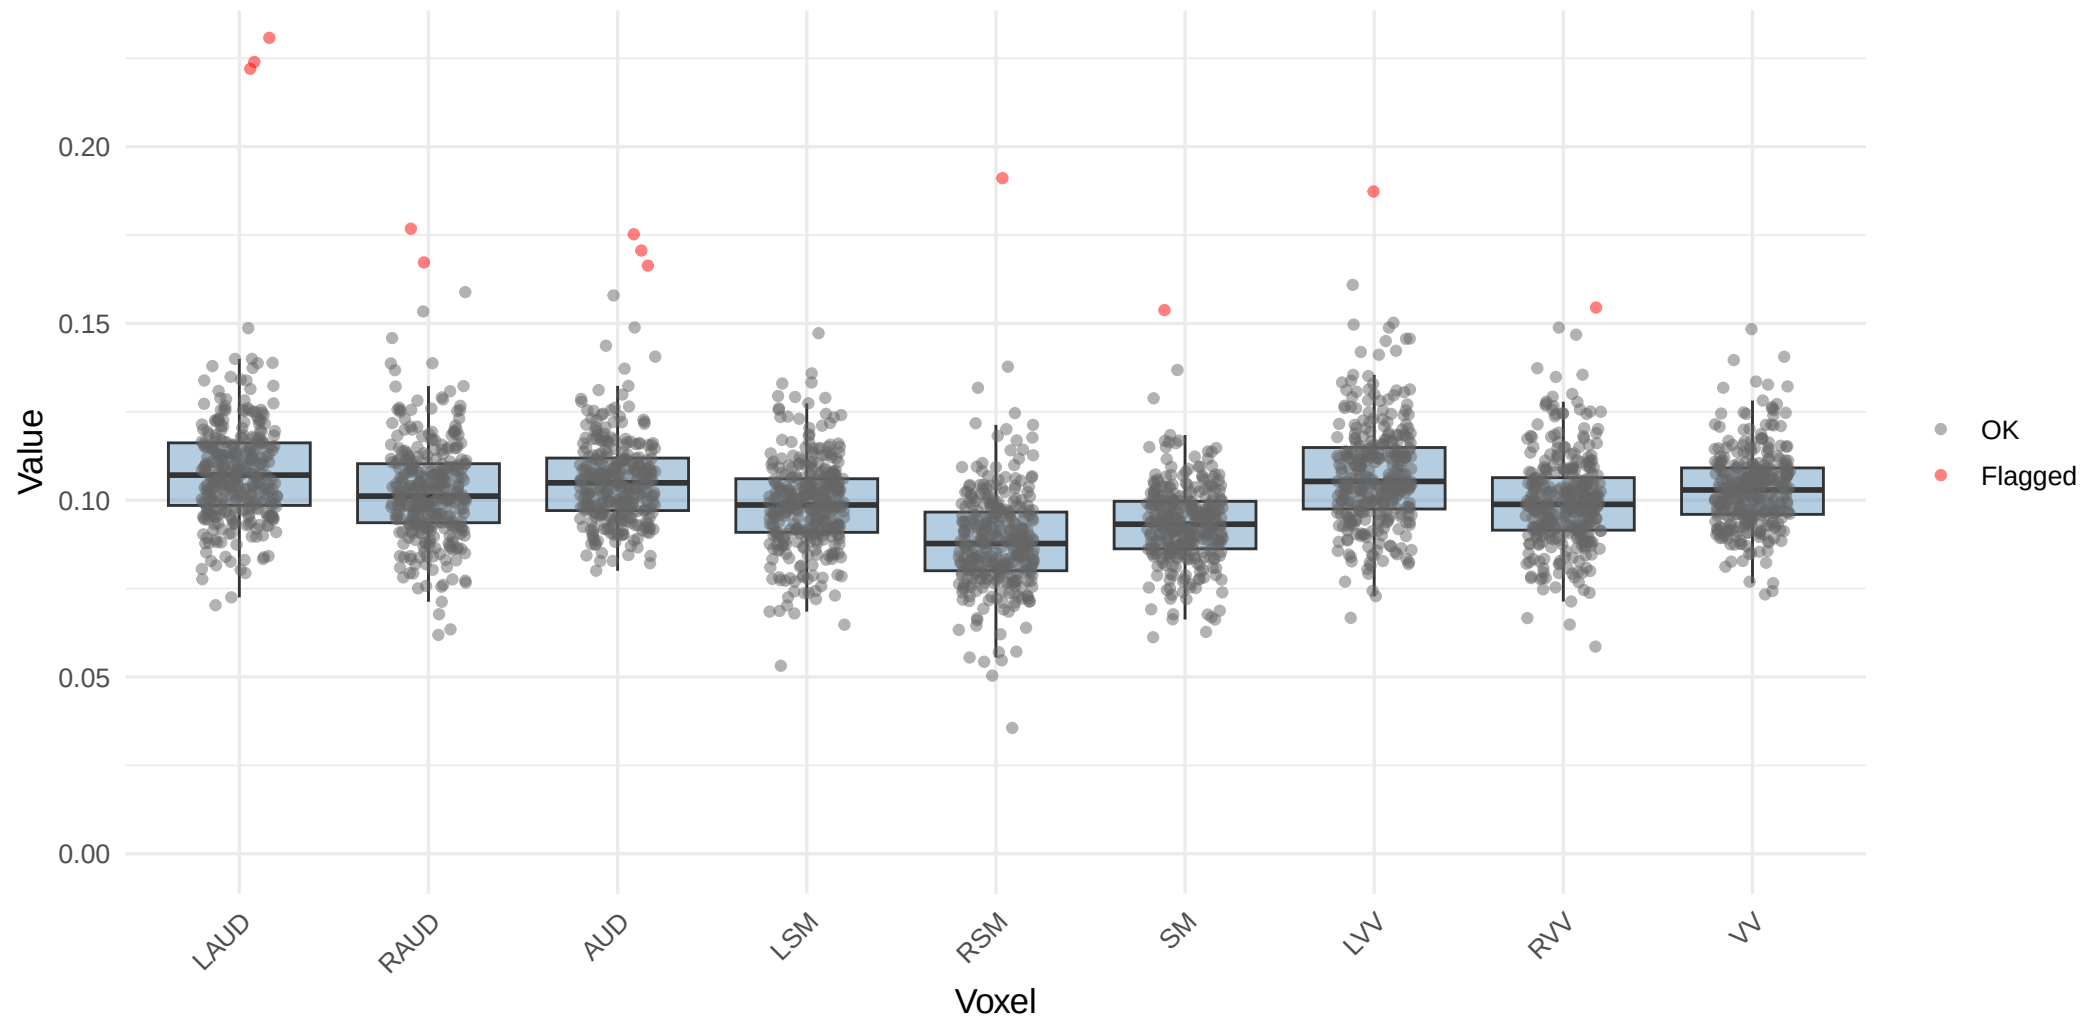

GLX - ATC correction

Red = negative, zero, or > 5 MAD from voxel median. Y-axis capped at median + 10 MAD.

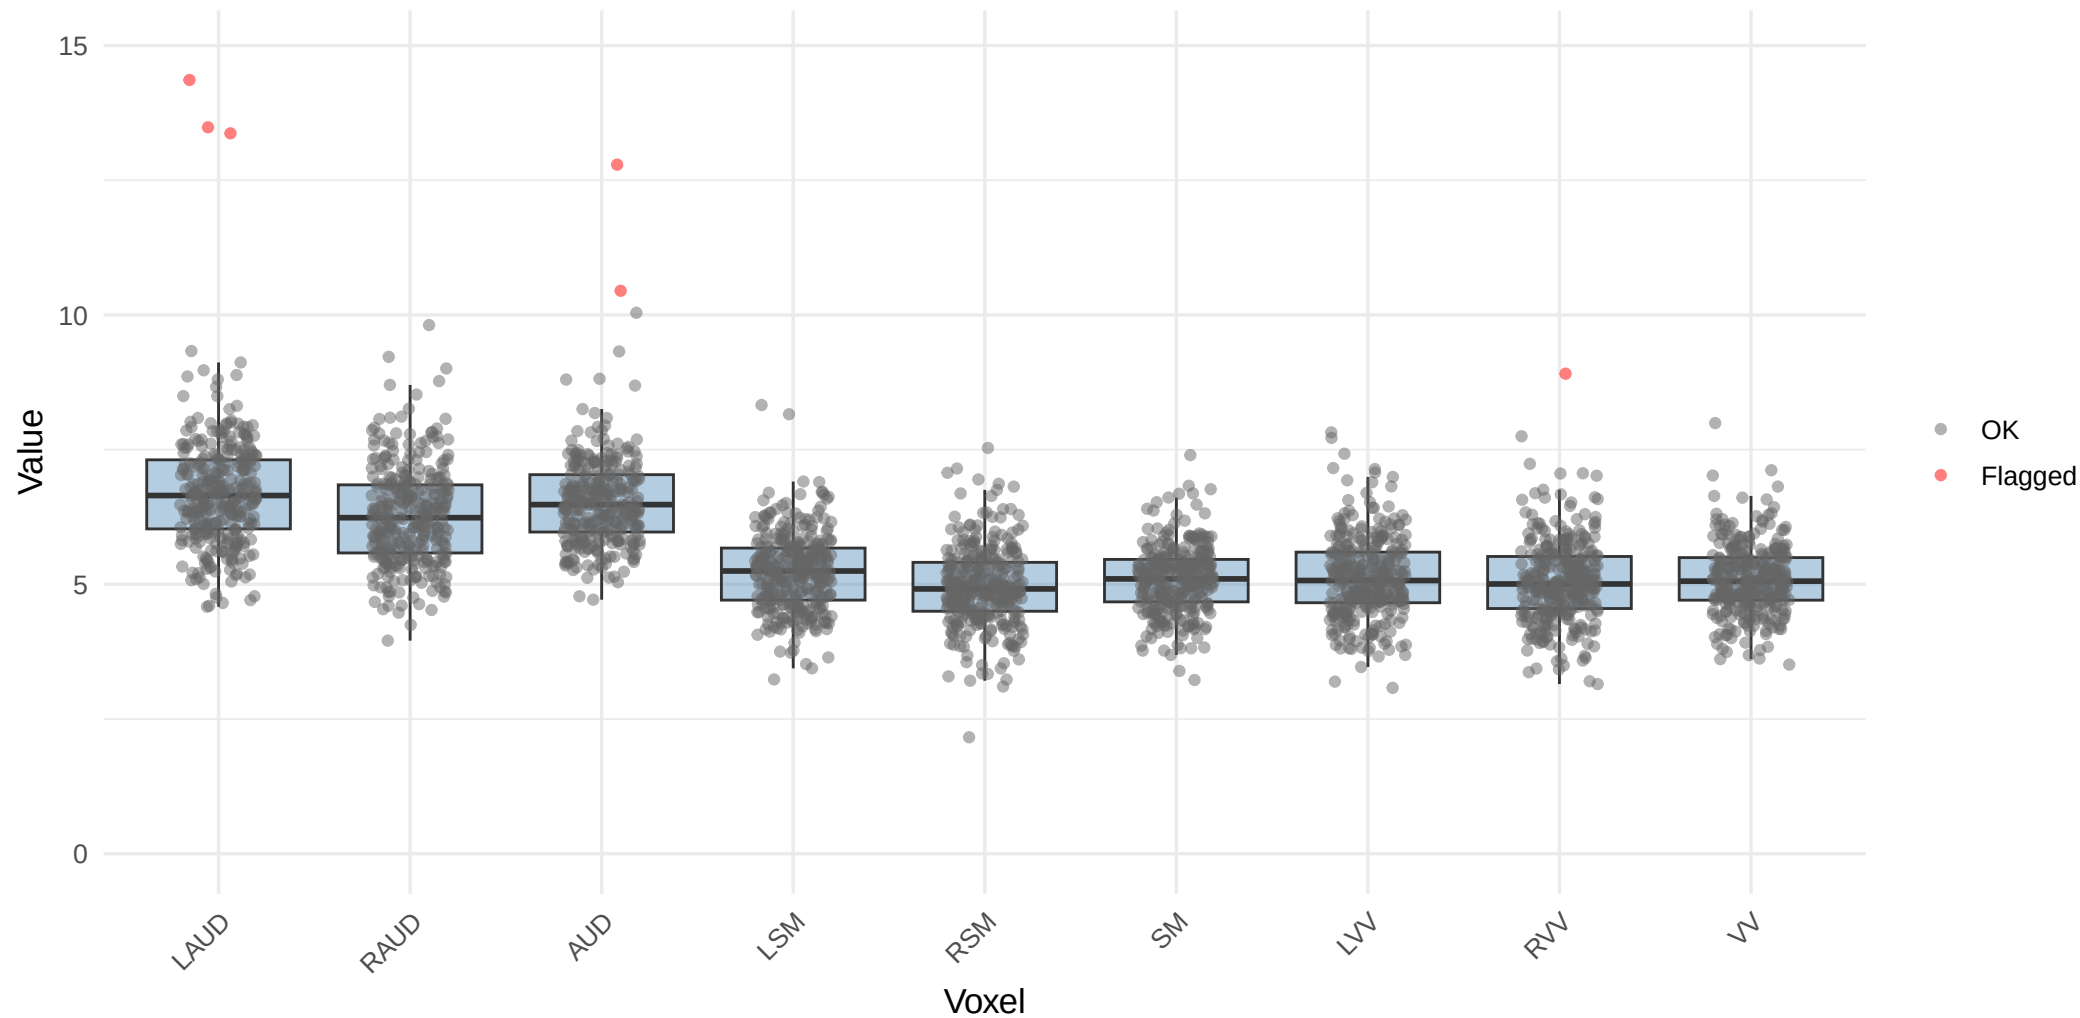

GLX - CR correction

Red = negative, zero, or > 5 MAD from voxel median. Y-axis capped at median + 10 MAD.

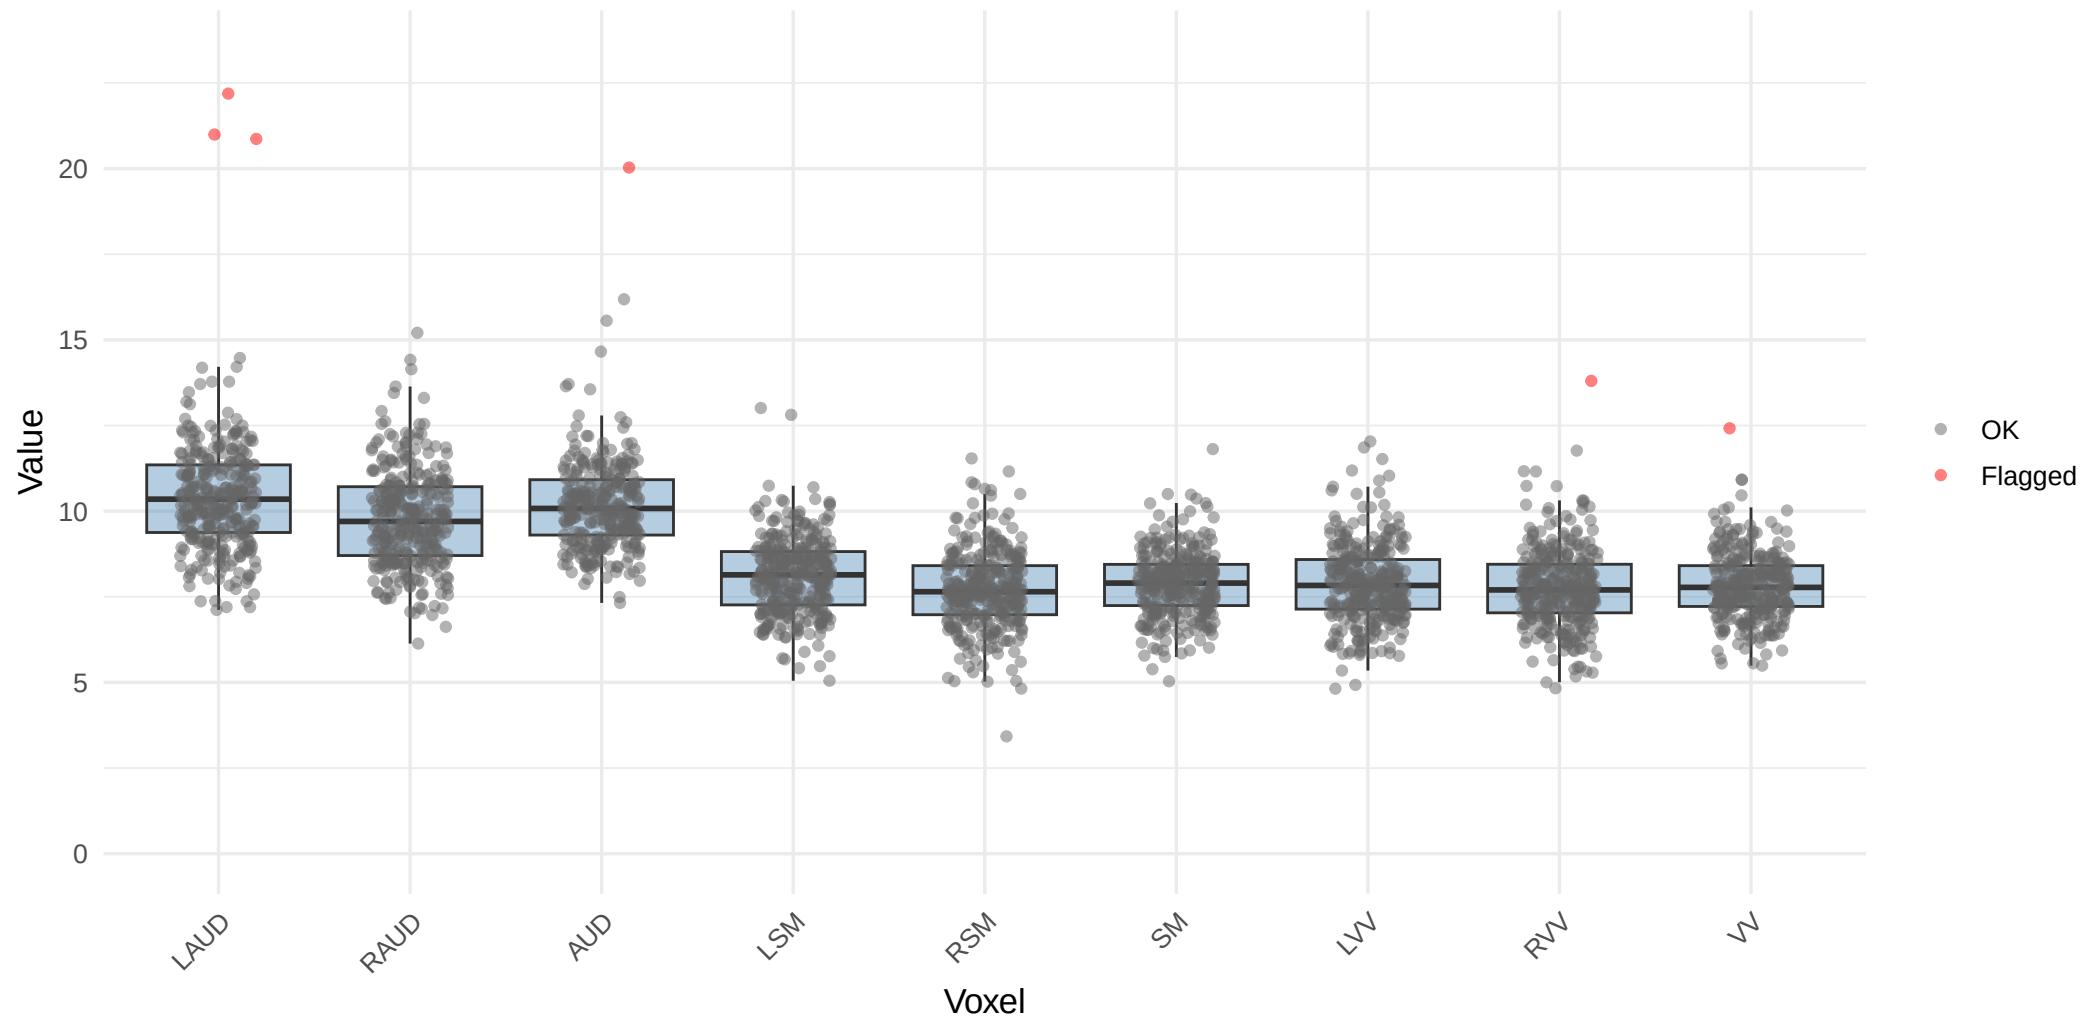

GLX - CSF correction

Red = negative, zero, or > 5 MAD from voxel median. Y-axis capped at median + 10 MAD.

GLX - TC correction

Red = negative, zero, or > 5 MAD from voxel median. Y-axis capped at median + 10 MAD.

GLX – UNC correction

Red = negative, zero, or > 5 MAD from voxel median. Y-axis capped at median + 10 MAD.
